OAK

Oak is a medium to light colored wood with a very defined grain, exhibiting the occasional mineral streak or pin knot. Oak wood accepts stain in all color ranges from light to dark in a very uniform and predictable manner.

HICKORY

Hickory is where beauty and durability meet. A dense durable wood with defined graining and color patterns running from dark to light. It's the right choice for the traditional customer with a taste for variety. Also available with rustic knots.

KNOTTY ALDER

Large open knots reflect the unique character and beauty of nature.

With cinnamon tones that can be stained for a wide variety of looks, Knotty Alder is perfect for creating a rustic look.

CHERRY

Cherry's rich intricate grain patterns and varied hues have made it a staple for fine furniture. Because cherry darkens with exposure to light, it may take several months for it to reach its final patina. Cherry is also available with rustic knots.

WALNUT

Walnut is a very stable hardwood with a rich appearance. It is generally straight grained with rich dark brown heartwood and nearly white sap wood. In its natural form, the difference between the heart and sap wood can be quite dramatic. Walnut finishes well in color ranges darker than the natural color of the wood, which minimize the color variations of its natural state.

GLAZE

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

Note: Photography is an artistic representation of color tones, but can never reflect the true beauty of wood. Always make sure to make your final selection from dealer provided samples.

PAINT

ON MAPLE AND MDF

Classic and tailored, or crisp and contemporary, the understated beauty of a painted finish creates a look that's timeless. Make a subtle statement with neutral tones, ranging from white to black.

GLAZE

Some glaze/finish combinations require samples for customer approval. See Bridgewood specification manual for details.

Era SERIES

The Era series represents the latest surfacing technology and offers a wide range of colors, in high-gloss, matte or linear textured patterns. These distinctive surfaces are low-maintenance and scratch-resistant, with high chemical and stain resistance, to withstand the demands of hardworking spaces.

Premium architectural surfaces on engineered panels, the Era series is available as slab doors and drawer heads. Close tolerances and tight reveals are achieved with the dimensional stability of these materials.

The edges of most doors and drawer fronts are finished with hot air applied edge banding, producing a seamless appearance, with no glue lines.

Allure & Mirage

The Allure and Mirage lines feature a highly reflective, mirror finish with the most scratch resistant high-gloss acrylic in the market. Color richness is enhanced by a UV stabilized top coat for ultimate depth and clarity. The impeccable surface consistency is achieved with a clean room lamination process. The Allure series features color matched edge banding, while the Mirage series has contrasting edge detailing, which creates the effect of an inset, brushed metal band or back painted glass.

Suede

The Suede series features an incredibly smooth, matte surface that is designed to absorb light and minimize reflection. This creates a soft appearance and touch. The top hardcoat is UV stabilized for long lasting color richness and also has excellent scratch resistance and anti-fingerprint properties. The subtle tones of the Suede series create rooms with an understated elegance and also become the perfect complement when combined with the colors and patterns of the other Era series.

Linea

High definition, structured melamine panels feature European trend-setting designs and deliver the look and feel of real wood along with the durability and reliability of premium engineered material. Linea patterns are offered with optional grain orientation to create different design effects.

Linea Linea Pure Vertical Linea Pure Horizontal

RANGE HOODS

The right range hood can create a beautiful and functional focal point in your kitchen. Available in Walnut, Cherry, Maple, Hickory, Knotty Alder, Oak and MDF, with the stained and painted finishes shown on pages 12-25.

STRAIGHTLINE

Walnut Drawer Accessories

Elegance and refined style with the convenience of pre-configured sets of drawer accessories. From silverware to spice pots and coffee pods, in a matter of minutes, you can permanently and elegantly reorganize everything you want to keep within arms reach. Select from a wide array of configurations optimized to perfectly suit your needs.

CONSTRUCTION

Face Frame CONSTRUCTION

Traditional cabinet construction, with the face of the cabinet box reinforced with a 3/4" thick solid hardwood frame. The face frame adds structural rigidity and is finished to match the cabinet door.

- 3/4" thick hardwood face frame
- 1/2" thick sides, back and floor
- 3/4" thick, full depth shelf

Frameless CONSTRUCTION

European style cabinetry, constructed with no face frame, eliminating any wasted space created by face frame offsets. Frameless construction allows full access to interior cabinet space.

- 3/4" thick sides and floor
- 1/2" thick back
- 3/4" thick, full depth shelf

Drawer Slide

- Full extension
- Undermount
- Soft close
- Lifetime Warranty

Door Hinge

- Soft close
- Concealed
- 6-way adjustment
- Lifetime Warranty

CONSTRUCTION OPTIONS

- Face Frame or Frameless construction
- Furniture-quality particle board construction with woodgrain pattern interior
- Furniture-quality particle board construction with white interior
- Plywood construction with UV finished interior

DRAWER BOX OPTIONS

- A. 5/8" solid wood drawer box with dovetail joinery
- B. 5/8" solid wood drawer box with furniture finished dovetail joinery
- C. 5/8" solid walnut drawer box with dovetail joinery
- D. Blum Legrabox, metal drawer box (available on frameless cabinets only)

Bridgewood was founded in 1974 on the belief that dreams and lives are built on faith, hard work and fair dealing. Over the years, our founder has proven time and again that these beliefs are undeniably true. This magic recipe of dreaming dreams, overcoming challenges and playing a part in building the lives of employees, dealers and customers who have welcomed our products into their homes for the last 45 years has lead to a legacy of service to others that we are proud to call our own.

What began as a part time operation to build tables for a local recreational vehicle manufacturer has evolved into a second generation family business dedicated to bringing some of the finest semi custom cabinetry available anywhere to American homes everywhere. At Bridgewood we believe that life is best lived in service to others and we look forward to serving you.
