CUSTOM CABINETRY

live beautifully

INTRODUCTION TO DUTCH MADE

A HERITAGE OF CRAFTSMANSHIP

At Dutch Made, we believe in living beautifully. From the heart to the home, our vision is a world filled with beauty. A world where families gather in the kitchen to make grandma's recipes. A world where people feel good about themselves, because they live a life surrounded by warm people and wonderful craftsmanship.

It is the skill and workmanship of thousands of hand-crafted custom doors, endless custom colors, and the unique application of finishes and materials that has earned us the reputation of, "If you can dream it, we can build it." Our 53-year history of success began with two men working by gas light in a chicken coop—all the while staying committed to their vision to fill the world with beauty. Word of mouth and repeat customers has been the testimony of Dutch Made craftsmanship since 1967.

Built on the belief that enduring style is achieved by merging art and function, we continue to create beautiful artisan cabinets with this time-honored technique. Our luxury cabinets combine our vision of steadfast tradition and constant evolution with a commitment to serve the people who use them. That's why every kitchen is made to stand up to years of slamming drawers and putting away dishes.

While style has changed over the decades and we have moved beyond our humble beginnings, our passion remains the same—enduring quality that brings timeless beauty for generations.

**WHAT WE DO REFLECTS
A PASSION FOR THE ART OF LIVING.**

DETAILED BY DESIGN

With a La Cornue range from France, heirloom copper pots and Dutch Made cabinetry that's detailed by design, this kitchen is a chef's dream come true. Walnut cabinets in a New Pearl White finish feature drawer boxes with cut-out fronts that add architectural interest and make identifying contents quick and easy. Hutch-style cabinetry puts an updated spin on classic kitchen storage with a nod to the period of the home. And the island's unique curved cut-out is more than decorative—it creates a wide enough aisle for walking between it and the curved wall opposite it.

Design by Karen Harautuneian

Beverly Hills, CA

“My client loves to cook and entertain so I designed this kitchen to be highly functional as well as beautiful. I knew from the start that I wanted this to be a Dutch Made space.”

ZONED FOR HOME

Designed for how we live today, this kitchen features a large island with room for all—kids doing homework, guests hanging out and cooks prepping meals. Custom crafted of rich walnut with wide, deep drawers and integrated hardware, this sleek focal point is also practically perfect. Drawers like these make it easy for kids to reach snacks without disturbing the workflow around them; and adults love having so much drawer storage right where they need it. The result? A family-friendly island that doesn't give an inch on style.

Design by Chris Jacob, Jacob & Co., Detroit, MI

“The custom capabilities of Dutch Made enable functional design without compromising style.”

THE WORLD IS YOUR OYSTER

**POSSIBILITIES ARE LIMITLESS
 WITH DUTCH MADE DOORS**

Select from our standard door types, or create your own. Even with our standard door styles, you can make selections on various thicknesses, edge profiles, panel options, drawer fronts, curve radius, and finishes. Or work with your designer to create something exclusively made for you.

THE DUTCH MADE DIFFERENCE

Made in the USA for over 52 years, Dutch Made elevates the standard of luxe cabinetry through endless create-a-door possibilities, thousands of custom colors, sheens and textures; and millwork that finishes the look with exceptional designer detail.

We're eco-friendly, too, because even the most beautiful cabinets aren't worthy of damaging our planet. Our operation meets and exceeds environmental stewardship criteria, as defined by the Kitchen Cabinet Manufacturers Association (KCMA). On our products, you'll find the KCMA "Environmental Stewardship Program" seal which certifies that we follow sustainable and responsible practices that benefit the environment.

A PASSION TO SURPASS THE STANDARD

- We offer a limited lifetime warranty
- Only the finest materials will do
- Ours is a truly custom approach fueled by your imagination
- Expert craftsmanship because of highly skilled designers and woodworkers
- Masterful finishing techniques
- A reputation you can rely on, 50+ years and counting
- Made in Indiana and with showrooms across the U.S., which supports American workers and the communities in which they live
