

Located in the beautiful
Shenandoah Valley of Virginia,
where we are surrounded
by majestic mountains and
rolling hills rich with color.
Our people are genuine with
a true appreciation of their
history and roots. Here lies the
inspiration for RiverRun Cabinetry.

This is home.

What makes RiverRun cabinetry such an outstanding investment? Our relentless commitment to creating a naturally beautiful, fully featured line of cabinets and an approach that combines traditional construction and hand finishing techniques with the efficiencies of contemporary production. RiverRun is where beauty, style, and quality meet to provide the best cabinet for the very best value.

## RiverRun Cabinet Construction

#### **I-BEAM STRETCHERS**

All base cabinets have a %"x 3" I-beam stretcher on the top left and right sides. The stretchers are captured by grooves in the frame, end panels and back panel to provide reinforcement to the base cabinet construction.

#### (A) FACE FRAMES

Constructed from ¾" hardwoods. Base and wall frames have 1½" stiles and rails. Base cabinets have a 1" reveal at the top. Bottom and sides have ¼" reveal.

#### (B) DOORS

Premium full overlay door styles with softclose door hinges. Stained doors are solid hardwood and painted doors are MDF. (See door specification pages: SF6-8 for details.)

#### (C) PANELS

Constructed from ½" plywood with option for finished skins. Ends, tops and bottoms are captured in frame grooves. Backs are captured in end panel grooves.

#### (D) HINGES

6-way fully concealed 108° self-closing cup hinges that allow easy height, width, and depth adjustment are standard.

#### (E) CABINET INTERIOR

Sealed with clear-coat finish. Finished Interior\* option may be selected on wall, base and tall cabinets up to 24" deep.

#### F BACKS

Backs are solid ½" plywood. Base cabinet backs extend to the floor providing optional structural stability.

#### (G) DRAWERS

EuroBoxes are 5/8" thick hardwood plywood with dowel construction. Option to upgrade to dovetail construction. Both options are clear coated and bottoms are fully captured plywood. Glides are under mount, full extension soft-close.

#### (H) TOE KICKS

Constructed from  $\frac{1}{2}$ " unfinished plywood. They are inset into the cabinet box  $\frac{3}{2}$ " and are  $\frac{4}{2}$ " high. Toe Kick Material (TKS) required to finish the toe kick space.

## ROLL OUT TRAY & PILASTER KIT (optional)

EuroBox (standard) or dovetail upgrade option for roll out tray box with undermount glides. Pilasters are installed at each corner of base cabinet (pantries get 2 sets of pilaster kits) with slots for approximate 1" height adjustments.

## NEW! EuroBox Drawers Now Available

These new EuroBox drawers now come standard with all cabinet orders including roll-out trays. Dovetail drawer boxes are also still available for an upcharge.

## Want a sample?

EuroBox samples can be ordered from the **Online Order** site listed under the **Sales Aids** tab with product code: SAMPLECHIPBOX\_EB. These sample boxes are 7" x 12" and come with the corner clipped to show the plywood and dowel construction.

## Show Your Clients that You Care by Protecting their Investment!

Cabinet Armor is the most economical way to protect cabinetry from damage that occurs on job sites. It shows your clients that you care and also saves you time and money in preventing possible damage to one of the most expensive items on the job.

# Cabinet Armor is available in 32-inch x 60-foot rolls \$60/roll (net price)

Cabinet Armor is perforated approximately every 12"-15" so no tools are required to cut. The area where the adhesive is to be applied must be clean before adhering the tape, then just remove the backing on the tape and apply. The tape is pressure sensitive so you will use slight pressure to adhere to the cabinets. It is removable and can be re-installed on the same job as needed.

Cabinet Armor is now available to order on the <u>Online Order site</u> and can be found under the "Repair Items" tab!

Ask your RiverRun dealer about special order options.
